

Tutorial -3

I. Answer **Any three** questions: **(10 Marks)**

1. What is Project Success?

- Has created the planned product with planned quality (Scope).
- Has finished within the planned schedule (Time).
- Has finished within the planned budget (Cost).

2. What is a Project Manager?

o The person assigned by the performing organization to achieve the project objectives.

3. What is a Portfolio in project management? Are the projects or programs within a portfolio necessarily interdependent or directly related?

-A collection of projects or programs and other work that are grouped together to facilitate effective management of that work to meet strategic business objectives.

- The projects or programs of the portfolio may not necessarily be interdependent or directly related.

4. What are Enterprise Environmental Factors (EEFs) in project management?

They refer to conditions, not under the control of the project team, that influence, constrain, or direct the project

-These conditions can be internal and/or external to the organization

-They considered as inputs to many project management processes, specifically for most planning processes

-These factors may enhance or constrain project management options.

-These factors may have a positive or negative influence on the outcome.

-EEFs vary widely in type or nature. These factors need to be considered if the project is to be effective.

5. What are Organizational Process Assets (OPAs) in project management?

The plans, processes, policies, procedures, and knowledge bases specific to and used by the performing organization

-These assets influence the management of the project

- Any artifact, practice, or knowledge from any or all of the performing organizations involved in the project

-Organization's lessons learned from previous projects and historical information and completed schedules, risk data, and earned value data

-Inputs to many project management processes

-The project team members may be able to update and add to the organizational process assets as necessary throughout the project.

II. Answer **Any TWO** questions:

1.Explain the three requirements for a Project Manager.

Three-Requirements for Project Manager:

1.**Knowledge** : What the project manager knows about project management

2.**Performance**: What the project manager is able to do or accomplish while applying their project management knowledge?

3.**Personnel**: How the project manager behaves when performing the project or related activity.

2.Explain any FIVE Project Management Knowledge Areas.

1. **Project Integration Management** - Includes the processes to identify, acquire, and manage the resources needed for the successful completion of the project

2.**Project Scope Management** - Includes the processes required to ensure the project includes all the work required, and only the work required, to complete the project successfully.

3.**Project Schedule Management** - Includes the processes required to manage the timely completion of the project.

4. Project Cost Management - Includes the processes involved in planning, estimating, budgeting, financing, funding, managing, and controlling costs so the project can be completed within the approved budget.

5. Project Procurement Management - Includes the processes necessary to purchase or acquire products, services, or results needed from outside the project team

3. Explain the elements of a Project Charter.

Project purpose;

1. Measurable project objectives and related success criteria;

2. High-level requirements;

3. High-level project description, boundaries, and key deliverables;

4. Overall project risk;

5. Summary milestone schedule;

6. Preapproved financial resources;

7. Key stakeholder list;

8. Project approval requirements (i.e., what constitutes project success, who the project is successful, and who signs off on the project);

9. Project exit criteria (i.e., what are the conditions to be met in order to close or to cancel

the project or phase);

10. Assigned project manager, responsibility, and authority level; and

11. Name and authority of the sponsor or other person(s) authorizing the project charter
